Version 1.2 2	Revision Date 11/21/2020	Print Date 07/09/2025	
Signal word	: Danger		
Hazard statements	 Highly flammable liquid and vapour. May be fatal if swallowed and enters Causes skin irritation. May cause drowsiness or dizziness. Suspected of damaging fertility or th May cause damage to organs througe exposure. 	s airways. ne unborn child.	
Precautionary statements	 Prevention: Obtain special instructions before us Do not handle until all safety precaulunderstood. Keep away from heat/ sparks/ open smoking. Keep container tightly closed. Ground/bond container and receivint Use explosion-proof electrical/ ventil Use only non-sparking tools. Take precautionary measures again Do not breathe dust/ fume/ gas/ miss Wash skin thoroughly after handling Use only outdoors or in a well-ventil Wear protective gloves/protective cl protection. 	tions have been read and flames/ hot surfaces. No g equipment. lating/ lighting equipment. hst static discharge. t/ vapours/ spray. J. ated area.	
	 Response: IF SWALLOWED: Immediately call a POISON CENTER/ doctor. IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF exposed or concerned: Get medical advice/ attention. Do NOT induce vomiting. If skin irritation occurs: Get medical advice/ attention. Take off contaminated clothing and wash before reuse. In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction. 		
	Storage: Store in a well-ventilated place. Kee Keep cool. Store locked up. Disposal:		
	Dispose of contents/ container to an	approved waste disposal	
	2/14

5. FIREFIGHTING MEASURES

Suitable extinguishing media	: Foam Carbon dioxide (CO2) Dry chemical Cool closed containers exposed to fire with water spray.
Unsuitable extinguishing media	: Do not use a solid water stream as it may scatter and spread fire.
Specific hazards during firefighting	 Highly flammable. Vapours may form explosive mixtures with air. Vapours are heavier than air and may spread along floors. Vapors may travel to areas away from work site before igniting/flashing back to vapor source. In case of fire hazardous decomposition products may be produced such as: Carbon monoxide Carbon dioxide (CO2)
Special protective equipment for firefighters Further information	 Wear self-contained breathing apparatus and protective suit. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
	: HAZCHEM CODE: 3YE

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	 Wear personal protective equipment. Immediately evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Remove all sources of ignition. Do not swallow. Do not breathe vapours or spray mist. Avoid contact with skin, eyes and clothing.
Environmental precautions	 Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Discharge into the environment must be avoided. Do not flush into surface water or sanitary sewer system. Do not allow run-off from fire fighting to enter drains or water courses.

Toluene 347-4 Version 1.2 2 Revision Date 11/21/2020 Print Date 07/09/2025 Methods for cleaning up : Ventilate the area. No sparking tools should be used. Use explosion-proof equipment. Contain spillage, soak up with non-combustible absorbent material (e.g. sand, earth, diatomaceous earth, verniculite) and transfer to a container for disposal according to local / national regulations (see section 13). 7. HANDLING AND STORAGE Handling Advice on safe handling : Wear personal protective equipment. Use only in well-ventilated areas. Keep container tightly closed. Do not smalke. Do not smalke. Keep away from direct sunlight.

Materials to avoid

: Strong oxidizing agents, Strong acids and strong bases, May attack many plastics, rubbers and coatings.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Components	CAS-No.	Value	Control parameters	Update	Basis
Toluene	108-88-3	SKIN_DES : Skin designation:	Can be absorbed through the skin.	12 2011	AU NOEL: Australia. National Workplace OELs (Workplace Exposure Standards for Airborne Contaminants, Appendix A), as amended
		TWA : Time Weighted Average (TWA):	50 ppm 191 mg/m3	12 2011	AU NOEL: Australia. National Workplace OELs (Workplace Exposure Standards for Airborne Contaminants, Appendix A), as amended
		STEL : Short Term Exposure Limit (STEL):	150 ppm 574 mg/m3	12 2011	AU NOEL: Australia. National Workplace OELs (Workplace Exposure Standards for Airborne Contaminants, Appendix A), as amended

Engineering measures

Use with local exhaust ventilation. Prevent vapour buildup by providing adequate ventilation during and after use.

Personal protective equipment

Respiratory protection	 In case of insufficient ventilation, wear suitable respiratory equipment. For rescue and maintenance work in storage tanks use self- contained breathing apparatus. Use NIOSH approved respiratory protection.
Hand protection	: Solvent-resistant gloves Gloves must be inspected prior to use.
