

Infosafe No™ 1CH58 Issue Date : November 2020 RE-ISSUED by CHEMSUPP

Product Name **POTASSIUM CHLORIDE**

Not classified as hazardous

1. Identification

GHS Product Identifier	POTASSIUM CHLORIDE	
Company Name	CHEMSUPPLY AUSTRALIA PTY LTD (ABN 19 008 264 211)	
Address	38 - 50 Bedford Street GILLMAN SA 5013 Australia	
Telephone/Fax Number	Tel: (08) 8440-2000	
Emergency phone number	CHEMCALL 1800 127 406 (Australia) / +64-4-917-9888 (International)	
E-mail Address	www.chemsupply.com.au	
Recommended use of the chemical and restrictions on use	Laboratory reagent, spectroscopy, photography, buffer solutions, pharmaceutical, preparations, electrolyte for batteries, treatment of prophylaxis and hypokalemia, food additive, salt substitute, plant nutrient, fertilizer, source of potassium salts and laboratory reagent.	
Other Names	<u>Name</u>	<u>Product Code</u>
	POTASSIUM CHLORIDE Low Ammonium	PS054
	POTASSIUM CHLORIDE LR	PL054
	POTASSIUM CHLORIDE AR	PA054

Other Information

ChemSupply Australia Pty Ltd does not warrant that this product is suitable for any use or purpose. The user must ascertain the suitability of the product before use or application intended purpose. Preliminary testing of the product before use or application is recommended. Any reliance or purported reliance upon ChemSupply Australia Pty Ltd with respect to any skill or judgement or advice in relation to the suitability of this product of any purpose is disclaimed. Except to the extent prohibited at law, any condition implied by any statute as to the merchantable quality of this product or fitness for any purpose is hereby excluded. This product is not sold by description. Where the provisions of Part V, Division 2 of the Trade Practices Act apply, the liability of ChemSupply Australia Pty Ltd is limited to the replacement of supply of equivalent goods or payment of the cost of replacing the goods or acquiring equivalent goods.

2. Hazard Identification

GHS classification of the substance/mixture	Classified as non-Hazardous according to the Globally Harmonised System of classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia. Not classified as dangerous goods according to the Australian Dangerous Goods Code (ADG).
Pictogram (s)	No symbol

3. Composition/information on ingredients

Information on Composition Occurs naturally as sylvite.

Ingredients	<u>Name</u>	<u>CAS</u>	<u>Proportion</u>
	Potassium chloride	7447-40-7	100 %

4. First-aid measures

Inhalation	If inhaled, remove from contaminated area to fresh air immediately. Apply artificial respiration if not breathing. If breathing is difficult, give oxygen. Get medical aid if cough or other symptoms appear.
Ingestion	Rinse mouth thoroughly with water immediately, repeat until all traces of product have been removed. DO NOT INDUCE VOMITING. Seek medical advice if effects persist.
Skin	Remove contaminated clothing and wash affected skin with soap and water. If rash or soreness develops, seek medical advice.
Eye contact	Immediately irrigate with copious quantity of water for at least 15 minutes.

Infosafe No™ 1CH58	Issue Date : November 2020	RE-ISSUED by CHEMSUPP
--------------------	----------------------------	-----------------------

Product Name **POTASSIUM CHLORIDE**

Not classified as hazardous

First Aid Facilities	Eyelids to be held open. Seek medical advice if effects persist. Maintain eyewash fountain and safety shower in work area.
Advice to Doctor	Treat symptomatically based on judgement of doctor and individual reactions of the patient. Consider the effects of potassium salts on the heart.
Other Information	For advice, contact a Poisons Information Centre (Phone eg Australia 13 1126; New Zealand 0800 764 766) or a doctor at once.

5. Fire-fighting measures

Hazards from Combustion Products	May liberate toxic fumes in fire (hydrogen chloride).
Specific Methods	Use extinguishing media most appropriate for the surrounding fire. No limitations to the type of extinguishing media. Small fire: Use dry chemical, CO2, water spray or foam. Large fire: Use water spray, fog or foam.
Precautions in connection with Fire	Wear SCBA and structural firefighter's uniform.

6. Accidental release measures

Personal Precautions	Avoid substance contact. Avoid generation of dusts: do not inhale dusts. Ensure supply of fresh air in enclosed rooms.
Personal Protection	Wear protective clothing specified for normal operations (see Section 8)
Clean-up Methods - Small Spillages	Sweep up (avoid generating dust) and remove to a suitable, clearly labelled container for disposal in accordance with local regulations.

7. Handling and storage

Precautions for Safe Handling	Avoid substance contact and generation and inhalation of dust.
Conditions for safe storage, including any incompatibilities	Store at room temperature (15 - 25 °C). Keep container tightly closed and dry, away from direct sunlight.

8. Exposure controls/personal protection

Other Exposure Information	No exposure standards have been established for this product by Safe Work Australia, however, the TWA exposure standard for dusts/mists not otherwise specified is 10 mg/m ³ . All atmospheric contamination should be kept to as low a level as is workable. These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.
Appropriate engineering controls	Maintain the concentrations values below the TWA. This may be achieved by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods.
Respiratory Protection	Usually is not required. Where protection is required from nuisance levels of dust or mists select respiratory protection that complies with AS 1716 - Respiratory Protective Devices and select in accordance with AS 1715 - Selection, Use and Maintenance of Respiratory Protective Devices. Filter capacity and respirator type depends on exposure levels.
Eye Protection	The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.
Hand Protection	Wear gloves of impervious material conforming to AS/NZS 2161: Occupational protective gloves - Selection, use and maintenance. Final choice of appropriate glove type will vary according to individual circumstances. This can include methods of handling, and engineering controls as determined by appropriate risk assessments.

Infosafe No™ 1CH58	Issue Date : November 2020	RE-ISSUED by CHEMSUPP
--------------------	----------------------------	-----------------------

Product Name **POTASSIUM CHLORIDE**

Not classified as hazardous

Personal Protective Equipment	Personal protective equipment should not solely be relied upon to control risk and should only be used when all other reasonably practicable control measures do not eliminate or sufficiently minimise risk. Guidance in selecting personal protective equipment can be obtained from Australian, Australian/New Zealand or other approved standards.
Footwear	Safety boots in industrial situations is advisory, foot protection should comply with AS 2210, Occupational protective footwear - Guide to selection, care and use.
Body Protection	Clean clothing or protective clothing should be worn, preferably with an apron. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.
Hygiene Measures	Always wash hands before smoking, eating or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

9. Physical and chemical properties

Form	Solid
Appearance	Colourless or white crystals.
Odour	Odourless
Melting Point	772 °C
Boiling Point	Sublimes at 1500 °C.
Solubility in Water	Very soluble in water (340 g/L @ 20 °C). Hydrochloric acid, sodium or magnesium chlorides diminish its solubility in water.
Solubility in Organic Solvents	Slightly soluble in alcohol. Insoluble in ether and acetone.
Specific Gravity	1.98
pH	5.5 - 8.0 (50 g/l, H ₂ O, 25 °C)
Vapour Pressure	Low
Flammability	Non combustible material.
Molecular Weight	74.55

10. Stability and reactivity

Chemical Stability	Stable under normal use conditons.
Incompatible Materials	Strong oxidizing agents, strong acids, sulfuric acid, potassium permanganate, bromine trifluoride.
Hazardous Decomposition Products	Hydrochloric acid, hydrogen chloride gas, potassium oxides.
Hazardous Polymerization	Will not occur.

11. Toxicological Information

Acute Toxicity - Oral	LD50 (rat): 2600 mg/kg.
Ingestion	After swallowing of large amounts may cause nausea, vomiting, diarrhoea, and abdominal cramps.
Inhalation	Inhalation of dust in high concentrations may cause respiratory tract irritation.
Skin	No adverse effects expected.
Eye	May cause watering of eyes.
Respiratory sensitisation	Not classified based on available information.
Skin Sensitisation	Not classified based on available information.

Infosafe No™ 1CH58	Issue Date : November 2020	RE-ISSUED by CHEMSUPP
--------------------	----------------------------	-----------------------

Product Name **POTASSIUM CHLORIDE**

Not classified as hazardous

Germ cell mutagenicity	Not classified based on available information.
Carcinogenicity	Not classified based on available information.
Reproductive Toxicity	Not classified based on available information.
STOT-single exposure	Not classified based on available information.
STOT-repeated exposure	Not classified based on available information.
Chronic Effects	Due to effect of potassium salts on the heart, accidental ingestion of large amounts by persons suffering from a heart condition should be considered dangerous and immediate medical assistance sought.
Mutagenicity	Not classified based on available information.

12. Ecological information

Persistence and degradability	Methods for the determination of biodegradability are not applicable to inorganic substances.
Acute Toxicity - Fish	Gambusia affinis LC50: 920 mg/l/96 h.
Acute Toxicity - Daphnia	Daphnia magna EC50: 825 mg/l/48 h.

13. Disposal considerations

Disposal Considerations	Whatever cannot be saved for recovery or recycling should be disposed of according to relevant local, state and federal government regulations.
--------------------------------	---

14. Transport information

Transport Information	Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
------------------------------	--

15. Regulatory information

Regulatory Information	All of the significant ingredients in this formulation are compliant with Australian Industrial Chemicals Introduction Scheme (AICIS) regulations. Not listed under WHS Regulation 2011, Schedule 10 - Prohibited carcinogens, restricted carcinogens and restricted hazardous chemicals.
Poisons Schedule	Not Scheduled

16. Other Information
