

Infosafe No™	1CH6W	Issue Date : August 2019	RE-ISSUED by CHEMSUPP
--------------	-------	--------------------------	-----------------------

Product Name : **SODIUM THIOSULFATE Pentahydrate**

Not classified as hazardous

1. Identification

GHS Product Identifier	SODIUM THIOSULFATE Pentahydrate		
Company Name	CHEM-SUPPLY PTY LTD (ABN 19 008 264 211)		
Address	38 - 50 Bedford Street GILLMAN SA 5013 Australia		
Telephone/Fax Number	Tel: (08) 8440-2000 Fax: (08) 8440-2001		
Emergency phone number	CHEMCALL 1800 127 406 (Australia) / +64-4-917-9888 (International)		
Recommended use of the chemical and restrictions on use	Photography (fixing agent to dissolve unchanged silver salts from exposed negatives), chrome tanning, removing chlorine in bleaching and papermaking, extraction of silver from its ores, dechlorination of water, mordant, analytical and laboratory reagent, bleaching, reducing agent in chrome dyeing, sequestrant in salt (up to 0.1%) and antidote for cyanide poisoning.		
Other Names	Name	Product Code	
	SODIUM THIOSULFATE Pentahydrate LR	SL018	
	SODIUM THIOSULFATE Pentahydrate AR	SA018	
	Sodium hyposulfite, Sodium subsulfite		

Other Information

Chem-Supply Pty Ltd does not warrant that this product is suitable for any use or purpose. The user must ascertain the suitability of the product before use or application intended purpose. Preliminary testing of the product before use or application is recommended. Any reliance or purported reliance upon Chem-Supply Pty Ltd with respect to any skill or judgement or advice in relation to the suitability of this product of any purpose is disclaimed. Except to the extent prohibited at law, any condition implied by any statute as to the merchantable quality of this product or fitness for any purpose is hereby excluded. This product is not sold by description. Where the provisions of Part V, Division 2 of the Trade Practices Act apply, the liability of Chem-Supply Pty Ltd is limited to the replacement of supply of equivalent goods or payment of the cost of replacing the goods or acquiring equivalent goods.

2. Hazard Identification

GHS classification of the substance/mixture	Not classified as hazardous according to the Approved Criteria for Classifying Hazardous Substances [NOHSC:1008(2004) 3rd Edition, Safe Work Australia.
Signal Word (s)	None

3. Composition/information on ingredients

Chemical Characterization	Solid				
Ingredients	Name	CAS	Proportion	Hazard Symbol	Risk Phrase
	Sodium thiosulfate pentahydrate	10102-17-7	95-100 %		

4. First-aid measures

Inhalation	Inhalation of any vapours from this product is not likely to present an acute hazard.
Ingestion	Rinse mouth thoroughly with water immediately. Do not induce vomiting. Seek medical advice if effects persist.
Skin	Wash with plenty of soap and water. If irritation occurs seek medical advice.
Eye contact	Irrigate with copious quantity of water for 15 minutes. Seek medical assistance if symptoms persist.
First Aid Facilities	Maintain eyewash fountain and safety shower in work area.
Advice to Doctor	Treat symptomatically.
Other Information	For advice, contact the National Poisons Information Centre (Phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.

5. Fire-fighting measures

Hazards from Combustion Products	May liberate toxic fumes in fire (sulfur oxides).
---	---

Infosafe No™	1CH6W	Issue Date : August 2019	RE-ISSUED by CHEMSUPP
--------------	-------	--------------------------	-----------------------

Product Name : **SODIUM THIOSULFATE Pentahydrate**

Not classified as hazardous

Specific Methods	No limitations to the type of extinguishing media. Use suitable measures to fight surrounding fire.
Specific hazards arising from the chemical	Material does not burn.
Decomposition Temp.	100 °C (release of crystalline water)
Precautions in connection with Fire	Use suitable protective clothing and breathing equipment for surrounding fire.

6. Accidental release measures

Personal Precautions	Avoid inhalation, contact with skin, eyes and clothing.
Personal Protection	Wear protective clothing specified for normal operations (see Section 8)
Clean-up Methods - Small Spillages	Sweep up (avoid generating dust) and remove to a suitable, clearly labelled container for disposal in accordance with local regulations.

7. Handling and storage

Precautions for Safe Handling	Avoid generation or accumulation of dusts. Wash hands and face thoroughly after working with material.
Conditions for safe storage, including any incompatibilities	Store in a cool, dry place. Store away from acids. Store away from oxidizing agents. Keep containers securely sealed and protected against physical damage.

8. Exposure controls/personal protection

Other Exposure Information	A time weighted average (TWA) concentration for an 8 hour day, and 5 day week has not been established by Safe Work Australia for this product. There is a blanket limit of 10 mg/m ³ for dusts or mists when limits have not otherwise been established.
Appropriate engineering controls	In industrial situations maintain the concentrations values below the TWA. This may be achieved by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods.
Respiratory Protection	Where ventilation is not adequate, respiratory protection may be required. Avoid breathing dust, vapours or mists. Respiratory protection should comply with AS 1716 - Respiratory Protective Devices and be selected in accordance with AS 1715 - Selection, Use and Maintenance of Respiratory Protective Devices. Filter capacity and respirator type depends on exposure levels. In event of emergency or planned entry into unknown concentrations a positive pressure, full-facepiece SCBA should be used. If respiratory protection is required, institute a complete respiratory protection program including selection, fit testing, training, maintenance and inspection.
Eye Protection	The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.
Hand Protection	Hand protection should comply with AS 2161, Occupational protective gloves - Selection, use and maintenance. Recommendation: Rubber or plastic gloves.
Personal Protective Equipment Footwear	Final choice of personal protective equipment will depend on individual circumstances and/or according to risk assessments undertaken. Safety boots in industrial situations is advisory, foot protection should comply with AS 2210, Occupational protective footwear - Guide to selection, care and use.
Body Protection	Clean clothing or protective clothing should be worn, preferably with an apron. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.
Hygiene Measures	Always wash hands before smoking, eating or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

9. Physical and chemical properties

Form	Solid
Appearance	White translucent crystals or powder.
Odour	Odourless.
Decomposition Temperature	100 °C (release of crystalline water)

Infosafe No™	1CH6W	Issue Date : August 2019	RE-ISSUED by CHEMSUPP
--------------	-------	--------------------------	-----------------------

Product Name : **SODIUM THIOSULFATE Pentahydrate**

Not classified as hazardous

Melting Point	48 °C
Solubility in Water	Soluble (680 g/L @ 20 °C)
Solubility in Organic Solvents	Soluble in oil of turpentine. Insoluble in alcohol.
Specific Gravity	1.74
pH	6.0 - 7.5 (100 g/l, H ₂ O, 20 °C)
Flammability	Non combustible material.
Molecular Weight	248.18
Other Information	Deliquescent in moist air. Efflorescent above 33 °C in dry air. Cooling taste and bitter aftertaste.

10. Stability and reactivity

Chemical Stability	Stable under normal use conditons.
Conditions to Avoid	Strong heating. Incompatibles.
Incompatible Materials	Sodium nitrate, nitrites, halogens, acids, fluorine, oxidising agents, peroxi compounds, iodine, silver salts, mercury salts, lead.
Hazardous Decomposition Products	Sulfur oxides, hydrogen sulfides.
Possibility of hazardous reactions	Reacts with acids to release sulfur dioxide, a highly toxic gas by inhalation. Sulfur dioxide is detectable by taste at 1 ppm and smell at approximately 4 ppm, providing some warning of unsuitable working conditions.
Hazardous Polymerization	Will not occur.

11. Toxicological Information

Acute Toxicity - Oral	LD50 (rat): > 5000 mg/kg
Ingestion	May cause mild irritation to the gastrointestinal tract. Diarrhea, nausea and vomiting may occur by ingestion of large quantities.
Inhalation	May cause respiratory tract irritation with symptoms including coughing and shortness of breath.
Skin	May cause skin irritation.
Eye	May cause mechanical irritation to the eye.
Carcinogenicity	No evidence of carcinogenic properties.
Chronic Effects	Repeated or prolonged skin contact may cause chronic dermatitis.
Mutagenicity	No evidence of mutagenic properties.

12. Ecological information

Ecological Information	No ecological problems are to be expected when the product is handled and used with due care and attention.
Persistence and degradability	Methods for the determination of biodegradability are not applicable to inorganic substances.
Bioaccumulative Potential	No bioaccumulation is expected (log P(o/w)<1) log P(o/w) -4.53 anhydrous material.

13. Disposal considerations

Disposal Considerations	Whatever cannot be saved for recovery or recycling should be disposed of according to relevant local, state and federal government regulations.
--------------------------------	---

14. Transport information

Transport Information	Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
------------------------------	--

15. Regulatory information

Regulatory Information	Listed in the Australian Inventory of Chemical Substances (AICS).
-------------------------------	---
