

## Safety Data Sheet **FRUCTOSE**

SDS no. UKV498V6 • Version 1.0 • Date of issue: 2026-01-01

---

### SECTION 1: Identification

#### GHS Product identifier

Product name FRUCTOSE

#### Other means of identification

Product Product Code

D(-)Fructose AR FA009

#### Recommended use of the chemical and restrictions on use

Foodstuff, medicine, preservative and laboratory reagent.

#### Supplier's details

Name ChemSupply Australia Pty Ltd  
Address 38-50 Bedford Street  
5013 Gillman South Australia  
Australia

Telephone 08 8440 2000  
email [www.chemsupply.com.au](http://www.chemsupply.com.au)

#### Emergency phone number

CHEMCALL 1800 127 406 (Australia) / +64-4-917-9888 (International)

---

### SECTION 2: Hazard identification

#### General hazard statement

Not classified as dangerous goods according to the Australian Dangerous Goods Code (ADG).

Classified as non-Hazardous according to the Globally Harmonised System of classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

#### Classification of the substance or mixture

##### GHS classification in accordance with: UN GHS revision 7

Not a hazardous substance or mixture.

##### GHS label elements, including precautionary statements

Not a hazardous substance or mixture.

##### Other hazards which do not result in classification

Not a hazardous substance or mixture.

# Safety Data Sheet

## FRUCTOSE

SDS no. UKV498V6 • Version 1.0 • Date of issue: 2026-01-01

---

### SECTION 3: Composition/information on ingredients

#### Substances

<b>Molecular weight</b>	180.16
-------------------------	--------

<b>Component</b>	<b>Identification</b>	<b>Weight %</b>
D(-)fructose	CAS no.: 57-48-7 EC no.: 200-333-3	<= 100 %

---

### SECTION 4: First-aid measures

#### Description of necessary first-aid measures

General advice	First Aid Facilities: Maintain eyewash fountain in work area.
If inhaled	If inhaled, remove from contaminated area to fresh air immediately. Apply artificial respiration if not breathing. If breathing is difficult, give oxygen. Get medical aid if cough or other symptoms appear.
In case of skin contact	Rinse with plenty of water. Get medical attention if irritation develops and persists.
In case of eye contact	If contact with the eye(s) occurs, wash with copious amounts of water for approximately 15 minutes holding eyelid(s) open. Take care not to rinse contaminated water into the non-affected eye. If persistent irritation occurs, obtain medical attention.
If swallowed	Rinse mouth thoroughly with water immediately, repeat until all traces of product have been removed. DO NOT INDUCE VOMITING. Seek medical advice if effects persist.

#### Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11

#### Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically based on judgement of doctor and individual reactions of the patient.

For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor.

---

### SECTION 5: Fire-fighting measures

#### Suitable extinguishing media

May burn but do not ignite readily.

Small fire: Use dry chemical, CO<sub>2</sub>, water spray or foam.

Large fire: Use water spray, fog or foam.

#### Specific hazards arising from the chemical

May burn but do not ignite readily. Runoff may pollute waterways. Fire may produce irritating, poisonous and/or corrosive fumes.

Containers may explode when heated.

#### Special protective actions for fire-fighters

Wear SCBA and structural firefighter's uniform.

# Safety Data Sheet

## FRUCTOSE

SDS no. UKV498V6 • Version 1.0 • Date of issue: 2026-01-01

---

### SECTION 6: Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment. Avoid dust formation. For personal protection see section 8.

#### Methods and materials for containment and cleaning up

Sweep up or vacuum up spillage and collect in suitable container for disposal. Avoid dust formation. Keep in suitable, closed containers for disposal.

---

### SECTION 7: Handling and storage

#### Precautions for safe handling

Avoid contact with skin and eyes. Do not eat, drink or smoke while handling. Wash hands with soap and water after handling. For precautions see section 2.

#### Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers tightly closed. Store away from incompatible materials. Ensure that storage conditions comply with applicable local and national regulations.

---

### SECTION 8: Exposure controls/personal protection

#### Appropriate engineering controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

#### Individual protection measures, such as personal protective equipment (PPE)

##### Eye/face protection

The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.

##### Skin protection

Clean impervious clothing should be worn. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.

##### Body protection

Footwear: Safety boots in industrial situations is advisory, foot protection should comply with AS 2210, Occupational protective footwear - Guide to selection, care and use.

Body Protection: Clean clothing or protective clothing should be worn, preferably with an apron. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.

##### Respiratory protection

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/ mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/ NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/ NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

---

### SECTION 9: Physical and chemical properties

#### Basic physical and chemical properties

Physical state	Solid
Appearance	White crystals.
Color	White

## Safety Data Sheet

### FRUCTOSE

SDS no. UKV498V6 • Version 1.0 • Date of issue: 2026-01-01

Odor	Odourless.
Odor threshold	
Melting point/freezing point	100 - 105 °C (decomposition)
Boiling point or initial boiling point and boiling range	No data available.
Flammability	Danger of dust explosion.
Lower and upper explosion limit/flammability limit	No data available.
Flash point	No data available.
Auto-ignition temperature	No data available.
Decomposition temperature	No data available.
pH	No data available.
Kinematic viscosity	No data available.
Solubility	Solubility in Water: Very soluble Solubility in Organic Solvents: Soluble in ether and alcohol.
Partition coefficient n-octanol/water (log value)	log P(o/w):-1.55
Vapor pressure	No data available.
Density and/or relative density	Specific Gravity: 1.59
Relative vapor density	No data available.
Particle characteristics	No data available.

#### Further safety characteristics (supplemental)

Specific rotation (20D): -89° - 93°

---

## SECTION 10: Stability and reactivity

#### Reactivity

Stable under normal conditions of storage and handling.

#### Chemical stability

Stable under recommended storage conditions.

#### Possibility of hazardous reactions

None under normal use conditions.

Hazardous Polymerization: Will not occur.

#### Conditions to avoid

Incompatible materials, dust generation, moisture, excess heat.

#### Incompatible materials

Strong oxidising agents.

## Safety Data Sheet

### FRUCTOSE

SDS no. UKV498V6 • Version 1.0 • Date of issue: 2026-01-01

#### Hazardous decomposition products

Carbon monoxide, irritating and toxic fumes and gases, carbon dioxide.

---

## SECTION 11: Toxicological information

### Information on toxicological effects

#### Acute toxicity

Ingestion: Large quantities may be harmful. May cause gastrointestinal irritation with nausea, vomiting, diarrhoea and gastric pain. Low hazard for usual industrial handling.

Inhalation: May cause respiratory tract irritation. Low hazard for usual industrial handling.

#### Skin corrosion/irritation

May cause skin irritation.

#### Serious eye damage/irritation

May cause eye irritation. May cause watering of eyes.

#### Respiratory or skin sensitization

Not classified based on available information.

#### Germ cell mutagenicity

Not classified based on available information.

#### Carcinogenicity

Not classified based on available information.

#### Reproductive toxicity

Not classified based on available information.

#### Specific target organ toxicity (STOT) - single exposure

Not classified based on available information.

#### Specific target organ toxicity (STOT) - repeated exposure

Not classified based on available information.

#### Aspiration hazard

Not classified based on available information.

#### Additional information

Naturally occurring substance. No toxic effects are to be expected when handled properly.

---

## SECTION 12: Ecological information

#### Bioaccumulative potential

Distribution: log P(o/w):-1.55

---

## SECTION 13: Disposal considerations

### Disposal methods

#### Product disposal

Waste material must be disposed of in accordance with the national and local regulations. Leave chemicals in original containers.

#### Sewage disposal

Distribution: log P(o/w):-1.55

# Safety Data Sheet

## FRUCTOSE

SDS no. UKV498V6 • Version 1.0 • Date of issue: 2026-01-01

### Other disposal recommendations

Do not discharge this material into waterways, drains and sewers.

---

## SECTION 14: Transport information

### ADG (Road and Rail)

Not dangerous goods

### IMDG

Not dangerous goods

### IATA

Not dangerous goods

---

## SECTION 15: Regulatory information

### Safety, health and environmental regulations specific for the product in question

#### Australia SUSMP

Poison Schedule: NS

---

## SECTION 16: Other information

### Further information/disclaimer

ChemSupply Australia Pty Ltd does not warrant that this product is suitable for any use or purpose. The user must ascertain the suitability of the product before use or application intended purpose. Preliminary testing of the product before use or application is recommended. Any reliance or purported reliance upon ChemSupply Australia Pty Ltd with respect to any skill or judgement or advice in relation to the suitability of this product of any purpose is disclaimed. Except to the extent prohibited at law, any condition implied by any statute as to the merchantable quality of this product or fitness for any purpose is hereby excluded. This product is not sold by description. Where the provisions of Part V, Division 2 of the Trade Practices Act apply, the liability of ChemSupply Australia Pty Ltd is limited to the replacement of supply of equivalent goods or payment of the cost of replacing the goods or acquiring equivalent goods.

### Preparation information

All information provided in this data sheet or by our technical representatives is compiled from the best knowledge available to us. However, since data, safety standards and government regulations are subject to change and the conditions of handling and use, or misuse, are beyond our control, we make no warranty either expressed or implied, with respect to the completeness or accuracy to the information contained herein. ChemSupply Australia Pty Ltd accepts no responsibility whatsoever for its accuracy or for any results that may be obtained by customers from using the data and disclaims all liability for reliance on information provided in this data sheet or by our technical representatives.
